IPS						Date Revised:	DEC 2006				
WELD-ON	MATERIAL SA	FETY DA	TA SHE	ET		Supersedes: C	DCT 2004				
Information on this form is furnished solely for the purport	se of compliance with the O	ccupational Saf	ety and Healt	h Act and sha	ll not be used f	or any other p	urpose.				
IPS Corporation urges the customers receiving this Material Safety Data Sheet to study it carefully to become aware of the hazards, if any, of the product involved.											
In the interest of safety, you should notify your employees, agents and contractors of the information on this sheet.											
SECTION I											
MANUFACTURER'S NAME			-	ion Emergen							
IPS Corporation ADDRESS			CHEMTREC: (800) 424-9300								
17109 S. Main St., P.O. Box 379, Gardena, CA. 90248			Medical Emergencies: 3 E COMPANY (24 Hour No.) (800) 451-8346								
				310) 898-3300	, , ,	0040					
CHEMICAL NAME and FAMILY		TRADE NAM									
Solvent Cement for PVC Plastic Pipe		WELD-ON 2	711 and 2721	Low VOC P	/C Plastic Pipe	Cements					
Mixture of PVC Resin and Organic Solvents											
SECTION II - HAZARDOUS INGREDIENTS											
None of the ingredients below are listed as						DUPOI					
carcinogens by IARC, NTP or OSHA	CAS# APPROX %		ACGIH-STEL		OSHA-STEL	(A) AEL	(B) STEL				
Polyvinyl Chloride Resin (PVC) Tetrahydrofuran (THF)**	NON/HAZ 109-99-9 40 - 50	N/A 50 PPM	100 PPM	N/A 200 PPM	250 PPM	50 PPM	75 PPM				
Methyl Ethyl Ketone (MEK)	78-93-3 5 - 15*	200 PPM	300 PPM	200 PPM 200 PPM	250 PPM 300 PPM	JUFFIN	73 FFIVI				
Cyclohexanone	108-94-1 9 - 18	20 PPM Skin	000111	50 PPM	000111						
Acetone	67-64-1 3 - 11	500 PPM	750 PPM	750 PPM	1000 PPM						
All of the constituents of Weld-On adhesive products are	e listed on the TSCA invento	orv of chemical s	substances ma	aintained by t	he US EPA. or	are exempt fro	om such listinc

		design and set of									
Ansul "Purple K" potassium bicarbonate dry chemical, a Use of a water fog by trained personnel can extinguish s		dry cnemical, c	arbon dioxide	or toam extin	guisner can be	used for small	i fires.				
SPECIAL FIRE FIGHTING PROCEDURES	<i></i>						.				
Evacuate enclosed areas. Stay upwind. Close quarters or confined spaces require self-contained breathing apparatus, positive pressure mask or airline mask.											
Use of a water fog by trained personnel can extinguish small/large fires and avoid water flow or water streams/spray distributing burning material or contaminated water over a large area or into sewers or storm drains. Use water spray to cool containers, to flush spills from source of ignition and to disperse vapors.											
UNUSUAL FIRE AND EXPLOSION HAZARDS Fire hazard because of low flash point and high volatility. Vapors are heavier than air and may travel to source(s) of ignition at or near ground or lower level(s) and flash											
back.

		SECTION	I VII -		R LEAI	<pre>K PROCE</pre>	DURES	
STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED								
								d with sand or earth. Absorb with
sand or nonflammable absorbent material and transfer into steel drums for recovery or disposal. Prevent liquid from entering drains.								
WASTE DISPOSAL METHOD								
	•						ve quantities sh	nould not be permitted to enter
drains. Empty containers s	hould be air o	dried before dispos	sing. Haz	ardous Waste Co	de (CA): 21	4.		
SECTION VIII - SPECIAL PROTECTION INFORMATION								
RESPIRATORY PROTEC Atmospheric levels should			ed expos	ure limits containe	d in Sectio	n II. If airborne co	ncentrations ex	ceed those limits use of a NIOSH
Atmospheric levels should be maintained below established exposure limits contained in Section II. If airborne concentrations exceed those limits, use of a NIOSH approved organic vapor cartridge respirator with full face-piece is recommended. The effectiveness of an air purifying respirator is limited. Use it only for a single								
short-term exposure. For emergency and other conditions where short-term exposure guidelines may be exceeded, use an approved positive pressure								
self-contained breathing ap	oparatus.							
VENTILATION								
Use only with adequate ventilation. Do not use in close quarters or confined spaces. Open doors and/or windows to ensure airflow and air changes. Use local exhaust								
ventilation to remove airborne contaminants from employee breathing zone and to keep contaminants below levels listed in Section II. Use only explosion-proof ventilation								
equipment. PROTECTIVE GLOVES		I rubber gloves for	fraguas	t dinning/immoroio	n lloo of l	atav/pitrila		
surgical gloves or solvent i		•	•					CTION Splashproof chemical goggles, afety glasses (spectacles) with brow
cement welding practices a								e shields, etc. as appropriate for exposure
				-			-	
OTHER PROTECTIVE EC					a ana af ar	rtaat		
Impervious apron and a source of running water to flush or wash the eyes and skin in case of contact.								
SECTION IX - SPECIAL PRECAUTIONS								
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING								
Store in the shade between 40°F - 110°F (5°C - 43.7°C). Keep away from heat, sparks, open flame and other sources of ignition. Avoid prolonged breathing of vapor. Use with adequate ventilation. Avoid contact with eyes, skin and clothing. Train employees on all special handling procedures before they work with this product.								
Use with adequate ventilat	ion. Avoid coi	ntact with eyes, sk	in and cl	othing. Train empl	oyees on a	II special handling	g procedures be	etore they work with this product.
OTHER PRECAUTIONS								
Follow all precautionary information given on container label, product bulletins and our solvent cementing literature. All material handling equipment should be								
electrically grounded.								

The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof.
